## SUBJECTS

**Acoustic neuroma**
Disappearing recurrent acoustic neuroma in elderly woman, 518
Growth rate of acoustic neuroma expressed by Ki-67 nuclear antigen versus symptom duration, 805
Laser-Doppler measurements and electrocochleography during ischemia of guinea pig cochlea: implications for hearing preservation in acoustic neuroma surgery, 127
Unilateral acoustic neuroma associated with tenth cranial nerve schwannoma, 818

Acquired immunodeficiency syndrome
Impact of acquired immunodeficiency syndrome epidemic on practice of laryngology, suppl 161

Activation
Differential osteoclast activation in endochondral and intramembranous bone, 616

Adenoma
Adenomatoid and calcifying epithelial odontogenic tumors, 159
Hyalinizing trabecular adenoma of thyroid gland, 239

Aerodynamic assessment
Aerodynamic assessment of speech of adults undergoing multichannel cochlear implantation, 294

Air pulse
Air pulse quantification of supraglottic and pharyngeal sensation: new technique, 777

Airflow
Effect of tension, stiffness, and airflow on laryngeal resistance in in vivo canine model, 761

Airway
Airway complications in thyroid surgery, 441
Airway protection during breath-holding, 941
Indications for open surgical removal of airway foreign bodies, 690
Management of airway obstruction in patients with congenital heart defects, 163

Allergen challenge
Effects of nasal allergen challenge on dynamic viscoelasticity of nasal mucus, 314

Allergy
Audiological study in guinea pigs with type I allergy induced in inner ear, 537
Substance P and vasoactive intestinal peptide in nasal secretions and plasma from patients with nasal allergy, 16

Ambulatory pH monitoring
Ambulatory pH monitoring in management of reflux, 243

Amyloidosis
Localized amyloidosis of larynx: evidence for light chain composition, 884

Anaerobe
Ultrasound detection of anaerobic neck infection, 157

Anastomosis
Resection of tracheal stenosis with end-to-end anastomosis, 670

Anesthesia
Comparison of functional endoscopic sinus surgery under local and general anesthesia, 289

Aneurysm
Aneurysmal bone cyst of mandible, 917
Extracranial carotid artery aneurysm, 961

Angiogenesis
Angiogenesis induced by head and neck squamous cell carcinoma xenografts in chick embryo chorioallantoic membrane model, 215

Angiolymphoid hyperplasia
Angiolymphoid hyperplasia with eosinophilia (histiocytoid hemangioma): evaluation of treatment options, 303

Ankyloglossia
Congenital ankyloglossia with deviation of epiglottis and larynx: symptoms and respiratory function in adults, 620

Anomalies
Classification of congenital middle ear anomalies. Report on 144 ears, 606

Anticholinergics
Therapeutic effects of anticholinergic-sympathomimetic combination in induced rhinovirus colds, 521

Antigen
Extraction of inner ear antigens for studies in inner ear autoimmunity, 22

Anti-inflammatory drugs
Arachidonic acid metabolites in experimental otitis media and effects of anti-inflammatory drugs, 954

Antineutrophil cytoplasmic autoantibodies
Wegener's granulomatosis and antineutrophil cytoplasmic autoantibodies, 906

Artery
Extracranial carotid artery aneurysm, 961
Persistent stapedial artery: does it prevent successful surgery? 724
Tortuous internal carotid artery: rare cause of oropharyngeal bulging diagnosed by magnetic resonance angiography, 964

Arytenoid
Endoscopic laser medial arytenoidectomy for airway management in bilateral laryngeal paralysis, 81
Silastic medialization and arytenoid adduction: Vanderbilt experience. Review of 116 phonosurgical procedures, 413
Vocal granuloma, including sclerosis of arytenoid cartilage: radiographic findings, 756

Atelectasis
Atelectasis of maxillary sinus with enophthalmos and midface depression, 429
Atelectatic ear tympanic membrane: histologic study, 712

Atresia
Esophageal stricture following esophageal atresia repair: endoscopic assessment and dilation, 332

Audiology
Audiological study in guinea pigs with type I allergy induced in inner ear, 537

Multivariate predictors of audiological success with multichannel cochlear implants, 909

Auditory center
Early-stage development of auditory center: experimental study of auditory evoked electrophysiologic recordings from fetal and newborn guinea pigs, 802

Auditory nerve
Cochlear wall titanium implants for auditory nerve stimulation, 447
Late waves in response recorded from intracranial portion of auditory nerve in humans, 945

Auditory sensation
Positron emission tomography of auditory sensation in deaf patients and patients with cochlear implants, 797

Auricular cartilage
Auricular cartilage grafts in laryngotracheal reconstruction, 247

Autoimmunity
Extraction of inner ear antigens for studies in inner ear autoimmunity, 22

**Bacterial flora**
Bacterial flora in external ear canal and in induced cholesteatoma in Mongolian gerbil, 559

Balance
Vestibular and balance rehabilitation therapy, 198

Balloon catheter
Rigid bronchoscopy balloon catheter dilation for bronchial stenosis in infants, 266

Blast injury

Development
Development of paranasal sinuses in children: implications for paranasal sinus surgery, 705
Early-stage development of auditory center: experimental

study of auditory evoked electrophysiologic recordings from fetal and newborn guinea pigs, 802
Three-dimensional analysis of murine laryngeal development, suppl 159
Whole organ evaluation of collagen in developing human larynx and adjoining anatomic structures (hyoid and trachea), 655

Dexamethasone
Dexamethasone inhibition of development of dysplastic bony lesions in LP/J mice, 814

Digital imaging
High-speed, light-intensified digital imaging of vocal fold vibrations in high optical resolution via indirect microlaryngoscopy, 502

Diverticulum
Microendoscopic laser diverticulotomy for hypopharyngeal diverticulum, 675

DNA
Comparison of quantitative DNA measurements and cytomorphology in squamous cell carcinomas of upper aerodigestive tract with and without lymph node metastases, 52

Drainage
Temporary nasosinusal drainage and lavage in chronic maxillary sinusitis. Statistical study on 847 maxillary sinuses, 858

Duct
Bilateral parotid duct fistula. Case report, 375

Dysplasia
Dexamethasone inhibition of development of dysplastic bony lesions in LP/J mice, 814

**Effusion**
Experimental otitis media with effusion induced by platelet activating factor, 600

Elderly
Postural control in young and elderly adults when stance is challenged: clinical versus laboratory measurements, 508

Electrical stimulation
Comparison of half-band and full-band electrodes for intracochlear electrical stimulation, 363

Electrocochleography
Laser-Doppler measurements and electrocochleography during ischemia of guinea pig cochlea: implications for hearing preservation in acoustic neuroma surgery, 127

Electrode

Esophagus
Esophageal stricture following esophageal atresia repair: endoscopic assessment and dilation, 332
Esophageal stricture: uncommon complication of foreign bodies, 863
Vocal cord paralysis caused by esophageal cancer surgery, 182

Eustachian tube
Compliance of patulous eustachian tube, 110
Effect of influenza A virus on ciliary activity and dye transport function in chinchilla eustachian tube, 551
Mucosal folds in human eustachian tube: hypothesis regarding functional localization in tube, 47

Evoked electrophysiologic recordings
Early-stage development of auditory center: experimental study of auditory evoked electrophysiologic recordings from fetal and newborn guinea pigs, 802

Evoked potential
Late waves in response recorded from intracranial portion of auditory nerve in humans, 945
Olfactory evoked potentials and contingent negative variation simultaneously recorded for diagnosis of smell disorders, 6

Extended high-frequency hearing
Effects of otitis media on extended high-frequency hearing in children, 1

External ear canal
Bacterial flora in external ear canal and in induced cholesteatoma in Mongolian gerbil, 559

External otitis
Malignant external otitis in nondiabetic patients, 870

Extracorporeal membrane oxygenation
Repair of laryngotracheoesophageal cleft in infant by means of extracorporeal membrane oxygenation, 827

Extubation
Failed extubation in neonatal intensive care unit, 489

**Facial nerve**
Facial nerve neuroma, 478
Intracranial longitudinal splitting of facial nerve: new approach for hemifacial spasm, 108

Familial paraganglioma
Magnetic resonance imaging of bilateral familial paragangliomas, 473

Far-advanced otosclerosis, 433

Fascia
Experimental tracheal tube created with vascularized fascia, 935

Fiberscopy
Stroboscopic videolaryngoscopy: comparison of fiberscopic and telescopic documentation, 255

Fibroinflammatory lesion
Tumefactive fibroinflammatory lesions of head and neck, 481

Fibrosarcoma
Fibrosarcoma of posterior neck, 820

Fibrous tumor
Solitary fibrous tumor, 74

Fistula
Bilateral parotid duct fistula. Case report, 375

Fixation
Posterior glottic fixation in children, 680

Flexible nasopharyngolaryngoscope
New techniques for sterile introduction of flexible nasopharyngolaryngoscopes, 687

Foreign body
Esophageal stricture: uncommon complication of foreign bodies, 863
Indications for open surgical removal of airway foreign bodies, 690

Frey's syndrome
Gustatory otorrhea: Frey's syndrome of external auditory canal, 438

Functional endoscopic sinus surgery

Adenomatoid and calcifying epithelial odontogenic tumors, 159
Epithelial choristomas and teratomas of tongue, 567
Extracranial, extraspinal meningiomas of head and neck, 967
Hyalinizing trabecular adenoma of thyroid gland, 239
Nonneoplastic vascular lesions of middle ear, 738
Papillary neoplasms (Heffner's tumors) of endolymphatic sac, 648
Peripheral epithelial odontogenic tumors, 322
Solitary fibrous tumor, 74
Squamous odontogenic tumor, 823
Tall cell carcinoma of thyroid gland, 402
Tumefactive fibroinflammatory lesions of head and neck, 481
Wegener's granulomatosis and antineutrophil cytoplasmic autoantibodies, 906

Pectoralis major
Cutaneous squamous cell carcinoma occurring in pectoralis major myocutaneous flap. Case report and literature review, 206

Pendred's syndrome, 285

Perforation
Animal model for persistent tympanic membrane perforations, 467

Perilymph
Accumulation of potassium in scala vestibuli perilymph of mammalian cochlea, 64

Persistent stapedial artery
Persistent stapedial artery: does it prevent successful surgery? 724

pH
Ambulatory pH monitoring in management of reflux, 243

Pharynx
Air pulse quantification of supraglottic and pharyngeal sensation: new technique, 777

Phonosurgery
Thyroplasty: new approach, 571

Photography
Art and science of laryngeal photography, 271

Phrenic nerve
Phrenic nerve reinnervation of cat's larynx: new technique with proven success, 837

Plastination
Plastination: new approach to morphological research and instruction with excised larynges, 660

Platelet activating factor
Experimental otitis media with effusion induced by platelet activating factor, 600

Polymerase chain reaction
Analysis of prevalence of human papillomavirus in laryngeal carcinomas. Study of 40 cases using polymerase chain reaction and consensus primers, 309

Polyps
Histamine metabolism in nasal polyps, 152

Positron emission tomography
Positron emission tomography of auditory sensation in deaf patients and patients with cochlear implants, 797

Posterior fossa
High jugular bulb: implications for posterior fossa neurotologic and cranial base surgery, 100

Posterior glottic fixation
Posterior glottic fixation in children, 680

Posterior rhinomanometry
Sources of variability in posterior rhinomanometry, 631

Postural control
Postural control in young and elderly adults when stance is challenged: clinical versus laboratory measurements, 508

Potassium
Accumulation of potassium in scala vestibuli perilymph of mammalian cochlea, 64

Predilection
Sites of predilection in recurrent respiratory papillomatosis, 580

Presbycusis
Cochlear pathology in presbycusis, suppl 158

Pressure
Thyroarytenoid intramuscular pressures, 167

*Prevotella intermedia*
Immune response to *Prevotella intermedia* in patients with recurrent nonstreptococcal tonsillitis, 113

Prolonged intubation
Prolonged intubation injuries of larynx: endoscopic diagnosis, classification, and treatment, suppl 160

*Pseudomonas*
Middle ear susceptibility to *Pseudomonas* infection during acute otitis media, 531

Pure second arch syndrome, 904

**Radiotherapy**
Carcinoma in situ of glottis: radiotherapy or excision biopsy? 592

Recurrent laryngeal nerve
Recurrent laryngeal nerve paralysis during transvenous insertion of permanent endocardial pacemaker, 810

Recurrent respiratory papillomatosis
Sites of predilection in recurrent respiratory papillomatosis, 580

Reflux
Ambulatory pH monitoring in management of reflux, 243

Regeneration
Regeneration of maxillary sinus mucosa following surgical removal. Experimental study in rabbits, 459

Rehabilitation
Vestibular and balance rehabilitation therapy, 198

Reinnervation
Phrenic nerve reinnervation of cat's larynx: new technique with proven success, 837

Respiratory function
Congenital ankyloglossia with deviation of epiglottis and larynx: symptoms and respiratory function in adults, 620
Improvements in respiratory and psychosocial functioning following total laryngectomy by use of heat and moisture exchanger, 878

Rhinomanometry
Sources of variability in posterior rhinomanometry, 631

Rhinophyma
Rhinophyma: new approach to hemostasis, 925

Rhinovirus
Therapeutic effects of anticholinergic-sympathomimetic combination in induced rhinovirus colds, 521

Rotation
Off-vertical axis rotational responses in patients with unilateral peripheral vestibular lesions, 137

Round window membrane
Round window membrane in serous and purulent otitis media. Structural study in rat, 227

**Scala vestibuli**
Accumulation of potassium in scala vestibuli perilymph of mammalian cochlea, 64

Scarpa's ganglion
Survival of Scarpa's ganglion in profoundly deaf human, 425

Schwannoma
Unilateral acoustic neuroma associated with tenth cranial nerve schwannoma, 818

Scintigraphy
Technetium 99m dimercaptosuccinic acid scintigraphy in medullary carcinoma of thyroid, 900

Sclerosis
Vocal granuloma, including sclerosis of arytenoid cartilage: radiographic findings, 756

Second arch syndrome
Pure second arch syndrome, 904

Secretory elements
Development of secretory elements in murine tubotympanum: lysozyme and lactoferrin immunohistochemistry, 385

Sensation
Air pulse quantification of supraglottic and pharyngeal sensation: new technique, 777

Serologic marker
Early diagnosis of otologic Wegener's granulomatosis using serologic marker C-ANCA, 337

Silastic
Silastic medialization and arytenoid adduction: Vanderbilt experience. Review of 116 phonosurgical procedures, 413

Sinus
Atelectasis of maxillary sinus with enophthalmos and midface depression, 429
Australian experience with functional endoscopic sinus surgery and its complications, 613
Comparison of functional endoscopic sinus surgery under local and general anesthesia, 289
Development of paranasal sinuses in children: implications for paranasal sinus surgery, 705
Mucosal fine structure in experimental sinusitis, 639
Regeneration of maxillary sinus mucosa following surgical removal. Experimental study in rabbits, 459
Temporary nasosinusal drainage and lavage in chronic maxillary sinusitis. Statistical study on 847 maxillary sinuses, 858

Smell
Olfactory evoked potentials and contingent negative variation simultaneously recorded for diagnosis of smell disorders, 6

Solitary fibrous tumor, 74

Speech
Aerodynamic assessment of speech of adults undergoing multichannel cochlear implantation, 294

Sphenoid sinus
Lymphoma of sphenoid sinus presenting as expansile mass, 318

Splitting
Intracranial longitudinal splitting of facial nerve: new approach for hemifacial spasm, 108

Spontaneous regression
Disappearing recurrent acoustic neuroma in elderly woman, 518

Squamous cell carcinoma
Angiogenesis induced by head and neck squamous cell carcinoma xenografts in chick embryo chorioallantoic membrane model, 215
Cell kinetics study of upper aerodigestive tract squamous cell carcinoma using bromodeoxyuridine, 42
Comparison of quantitative DNA measurements and cytomorphology in squamous cell carcinomas of upper aerodigestive tract with and without lymph node metastases, 52
Cutaneous squamous cell carcinoma occurring in pectoralis major myocutaneous flap. Case report and literature review, 206

Squamous odontogenic tumor, 823

Stance
Postural control in young and elderly adults when stance is challenged: clinical versus laboratory measurements, 508

Stapedial artery
Persistent stapedial artery: does it prevent successful surgery? 724

Stapes
Composition of otosclerotic stapes: electron microprobe analyses, 353

Stellate ganglion
Effects of stellate ganglion stimulation on bilateral cochlear blood flow, 378

Stenosis
Laryngotracheal reconstruction for subglottic stenosis, 176
Resection of tracheal stenosis with end-to-end anastomosis, 670
Rigid bronchoscopy balloon catheter dilation for bronchial stenosis in infants, 266

Sterile technique
New technique for sterile introduction of flexible nasopharyngolaryngoscopes, 687

Stricture
Esophageal stricture following esophageal atresia repair: endoscopic assessment and dilation, 332
Esophageal stricture: uncommon complication of foreign bodies, 863

Stroboscopy
Correlation between stroboscopy and electromyography in laryngeal paralysis, 852
Stroboscopic videolaryngoscopy: comparison of fiberscopic and telescopic documentation, 255

Stroke
Perioperative stroke in patients undergoing head and neck surgery, 717

Stylohyoid chain
Osteoma arising from stylohyoid chain and manifesting as neck and oropharyngeal mass, 399

Subglottis
Laryngotracheal reconstruction for subglottic stenosis, 176

Substance P
Substance P and vasoactive intestinal peptide in nasal secretions and plasma from patients with nasal allergy, 16

Sudden sensorineural hearing loss
Sudden sensorineural hearing loss associated with slow blood

flow of vertebrobasilar system, 873

Suprastomal granuloma
Giant suprastomal granuloma as laryngeal mass, 701

Susceptibility
Middle ear susceptibility to *Pseudomonas* infection during acute otitis media, 531

Sympathomimetics
Therapeutic effects of anticholinergic-sympathomimetic combination in induced rhinovirus colds, 521

Synechiae
Congenital oral synechiae, 186

**Tall cell carcinoma**
Tall cell carcinoma of thyroid gland, 402

Technetium 99m
Technetium 99m dimercaptosuccinic acid scintigraphy in medullary carcinoma of thyroid, 900

Teflon
Difficulties in endoscopic removal of Teflon granulomas of vocal fold, 405
Teflon granulomas and overinjection of Teflon: therapeutic challenge for otorhinolaryngologist, 748
Teflon injection: pointers and pitfalls, 283

Teratoma
Epithelial choristomas and teratomas of tongue, 567

Three-dimensional analysis
Three-dimensional analysis of murine laryngeal development, suppl 159

Thrombosis
Computed tomographic diagnosis of radiation-induced internal carotid artery thrombosis, 236

Thyroarytenoid
Function of thyroarytenoid muscle in canine laryngeal model, 769
Thyroarytenoid intramuscular pressures, 167

Thyroid
Airway complications in thyroid surgery, 441
Hyalinizing trabecular adenoma of thyroid gland, 239
Tall cell carcinoma of thyroid gland, 402
Transient hypocalcemia after thyroidectomy, 496

Thyroplasty
Thyroplasty: new approach, 571

Titanium
Cochlear wall titanium implants for auditory nerve stimulation, 447

Tongue
Congenital ankyloglossia with deviation of epiglottis and larynx: symptoms and respiratory function in adults, 620
Traumatic macroglossia, 729

Tonsil
Immune response to *Prevotella intermedia* in patients with recurrent nonstreptococcal tonsillitis, 113
Metastatic tonsil melanoma, 731

Trachea
Experimental tracheal tube created with vascularized fascia, 935
Resection of tracheal stenosis with end-to-end anastomosis, 670

Tracheoscope
Tracheoscope: old instrument with new applications, 834

Trauma
Oral blast injury caused by accident, 528
Traumatic cervical cystic lymphangioma in adult, 564
Traumatic macroglossia, 729

Tubotympanum
Development of secretory elements in murine tubotympanum: lysozyme and lactoferrin immunohistochemistry, 385

Tumor
World Health Organization's revised classification of tumours of larynx, hypopharynx, and trachea, 666

Tussometry
Tussometry: objective assessment of vocal cord function, 743

Tympanic membrane
Animal model for persistent tympanic membrane perforations, 467
Atelectatic ear tympanic membrane: histologic study, 712
Lightning injury of tympanic membrane, 867

**Ultrasound**
Ultrasound detection of anaerobic neck infection, 157

Utricular macula
Rat utricular macula: blood flow and stereological assessment of capillary morphology, 893

**Variability**
Sources of variability in posterior rhinomanometry, 631

Vascular bed
Experimental tracheal tube created with vascularized fascia, 935
Experimental transferable vascular bed for laryngotracheal reconstruction: further observations, 144

Vascular lesion
Nonneoplastic vascular lesion of middle ear, 738

Vasoactive intestinal peptide
Substance P and vasoactive intestinal peptide in nasal secretions and plasma from patients with nasal allergy, 16

Ventilation
Hayek oscillator: new method of ventilation in microlaryngeal surgery, 455

Vertebrobasilar system
Sudden sensorineural hearing loss associated with slow blood flow of vertebrobasilar system, 873

Vertigo
Particle repositioning maneuver for benign paroxysmal positional vertigo, 325

Vestibule
Off-vertical axis rotational responses in patients with unilateral peripheral vestibular lesions, 137
Vestibular and balance rehabilitation therapy, 198

Vibration
Measurement of mucosal wave propagation and vertical phase difference in vocal fold vibration, 58

Videolaryngoscopy
Stroboscopic videolaryngoscopy: comparison of fiberscopic and telescopic documentation, 255

Virus
Neuro-otologic abnormalities in myelopathy associated with human T-cell lymphotropic virus type 1, 359

Viscoelasticity
Effects of nasal allergen challenge on dynamic viscoelasticity of nasal mucus, 314

Vocal cord
Bipolar hooked-wire electromyographic technique in evaluation of pediatric vocal cord paralysis, 695
Tussometry: objective assessment of vocal cord function, 743
Vocal cord paralysis caused by esophageal cancer surgery, 182

Vocal fold
High-speed, light-intensified digital imaging of vocal fold vibrations in high optical resolution via indirect microlaryngoscopy, 502
Laser surgery for epithelial hyperplasia of vocal fold, 85
Measurement of mucosal wave propagation and vertical phase difference in vocal fold vibration, 58
Measurement of Young's modulus in in vivo human vocal folds, 584
Teflon injection: pointers and pitfalls, 283

Voice
Voice rehabilitation after total laryngectomy and tracheoesophageal puncture using nonmuscle closure, 792

**Wegener's granulomatosis**
Early diagnosis of otologic Wegener's granulomatosis using serologic marker C-ANCA, 337
Wegener's granulomatosis and antineutrophil cytoplasmic autoantibodies, 906

World Health Organization
Validation of World Health Organization guidelines for pain relief in head and neck cancer. Prospective study, 342
World Health Organization's revised classification of tumours of larynx, hypopharynx, and trachea, 666

**Young's modulus**
Measurement of Young's modulus in in vivo human vocal folds, 584
